REMARKS

Return to CIA

25X1X

1. The Halle-Nietleben (M 52/D 22) airfield and former signal communication school were observed from the east, south and west on 5 April 1950. Only four antenna masts, ~~appar-~~ently arranged in a square, were seen in the quartering area. No radar set or a similar body was seen on top of a building. Several local residents said there was no activity at the field.
2. The Halle-Nietleben signal communication school was observed from the east between 7:30 and 10 a.m. on 6 April 1950. All elevated points and buildings were observed with greatest attention but no radar set was seen. No aircraft were stationed at

- *  Comment: Both sources were requested to observe and photograph a radar set allegedly mounted on top of the flight control tower at the Halle-Nietleben airfield. They agree that no radar set is at the airfield or on top of a building. This confirms a report of 25 March 1950 by one source of the present report.
